# School Bus Safety

## Overview

Each school day, millions of children ride school buses. Did you know that the school bus is one of the safest vehicles on the road? Less than 1% of all traffic fatalities involve children on school transportation vehicles. However, children are more at risk when approaching or leaving a school bus. It's important for all drivers, as well as parents and students, to understand school bus safety.

The theme for National School Bus Safety Week in 2024 is **"Driving Safely Into the Future"**.

The week will take place from October 21–25, 2024.

The National Association for Pupil Transportation (NAPT) chooses a theme each year to focus safety materials on. The week is a public education program that aims to raise awareness of the importance of school bus safety. It's a time for students, parents, school administrators, and others to highlight the importance of safety on school buses
